### OBJECTIVE

Hi! I'm Dao Anh Dung, currently a 3rd year student at FPT University.

Taking advantage of the advantages of logical thinking, teamwork, programming skills, analysis as well as knowledge in school, I look forward to learning and implementing new technologies to gain more experience.

I hope to have the opportunity to work in a professional environment so that I can improve my personal skills; then use the knowledge to contribute to the company

Ultimately, I want to create solutions for software products that bring value to the company and its customers.
